Advantages

The UFRSD preschool program offers children the opportunity to work and play with age-appropriate peers.

Who Can Enroll

All children residing in the Upper Freehold Regional School District will be offered the opportunity for a full-day preschool program serving 3 to 5 year old children. Students are required to be potty trained.

Program

The UFRSD Preschool Program curriculum follows Tools of the Mind which is a state approved early childhood curriculum. In a caring, positive atmosphere, we create a warm and happy place for pre-schoolers to learn. As we bridge the gap from home to school, we guide children to a continued good self-image while building social skills in a school setting. Each child is recognized as an individual, working from his or her present developmental level and moving forward one step at a time.

Classroom routines encourage active involvement, experimentation and reinforcement. The activities within the classroom incorporate children's individual differences and maturation levels, learning styles, needs, interests, and prior experiences. Motor, language, perceptual, social and self-help skills are introduced.

"...a caring partnership of school, family, and community..."

The classroom features low staff-student ratios. In addition, we offer speech, physical, and occupational therapy services as needed.
